UNIVERSAL HEALTH SERVICES, INC. REPORTS
2006 FOURTH QUARTER AND FULL YEAR EARNINGS AND 2007 GUIDANCE

KING OF PRUSSIA, PA – Universal Health Services, Inc. (NYSE: UHS) announced today that its reported net income was \$34.2 million, or \$.63 per diluted share, during the fourth quarter of 2006 as compared to \$12.3 million, or \$.23 per diluted share, during the comparable prior year quarter. Reported net income was \$259.5 million, or \$4.56 per diluted share, during the twelve months ended December 31, 2006 as compared to \$240.8 million, or \$4.00 per diluted share, during 2005.

Reported income from continuing operations was \$34.2 million, or \$.63 per diluted share, during the fourth quarter of 2006 as compared to \$9.0 million, or \$.17 per diluted share, during the fourth quarter of 2005. Reported income from continuing operations was \$259.6 million, or \$4.57 per diluted share, during the twelve-month period ended December 31, 2006 as compared to \$109.8 million, or \$1.91 per diluted share, during 2005.

As indicated on the attached Schedules of Non-GAAP Supplemental Consolidated Statements of Income Information (“Supplemental Schedules”), our income from continuing operations and net income, for the three and/or twelve-month periods ended December 31, 2006 and 2005, include various items such as: (i) hurricane related expenses, net of minority interests and income taxes; (ii) hurricane related insurance recoveries, net of minority interests and income taxes; (iii) retroactive effect of supplemental reimbursements earned in certain states and contractual settlements, net of income taxes; (iv) a reserve recorded in connection with a lawsuit; (v) a charge incurred to record the aggregate present value of the future funding of a portion of a gift to The College of William & Mary (“William & Mary Funding”) on behalf of our Chairman of the Board of Directors, Chief Executive Officer and President; (vi) favorable income tax adjustment to reduce reserves due to the expiration of statute of limitations in a foreign jurisdiction, and; (vii) gains on divestitures, net of income taxes (included in net income for the three and twelve-month periods ended December 31, 2005).

After adjusting for the items discussed above applicable to each period presented, as indicated on the attached Supplemental Schedules, our adjusted net income during the three-month period ended December 31, 2006 was \$32.4 million, or \$.60 per diluted share, as compared to \$27.2 million, or \$.50 per diluted share, during the fourth quarter of

2005. Our adjusted net income during the twelve-month period ended December 31, 2006 was \$157.3 million, or \$2.79 per diluted share, as compared to \$154.8 million, or \$2.62 per diluted share, during the comparable prior year twelve-month period.

Our adjusted income from continuing operations during the three-month period ended December 31, 2006 was \$32.4 million, or \$.60 per diluted share, as compared to \$24.8 million, or \$.45 per diluted share, during the three-month period ended December 31, 2005. Our adjusted income from continuing operations during the twelve-month period ended December 31, 2006 was \$157.5 million, or \$2.80 per diluted share, as compared to \$151.1 million, or \$2.56 per diluted share, during the comparable prior year twelve-month period.

Net revenues increased 10% to \$1.07 billion during the fourth quarter of 2006 as compared to \$967 million during the fourth quarter of 2005. Net revenues increased 7% to \$4.19 billion during the twelve months ended December 31, 2006 as compared to \$3.94 billion during the prior year twelve-month period. Impacting our net revenues during 2006 was the loss of revenues generated at our acute care facilities in Louisiana which were damaged and closed since the third quarter of 2005 as a result of Hurricane Katrina. On a combined basis, these facilities generated net revenues of \$166 million during the eight months of 2005 prior to closure. Also, on January 1st of this year, we implemented a formal company-wide uninsured discount policy which has had the effect of lowering both net revenues and the provision for doubtful accounts by approximately \$15 million and \$61 million during the three and twelve-month periods ended December 31, 2006, respectively. The implementation of this uninsured discount policy did not have a significant impact on our 2006 net income.

Our consolidated operating margin, as calculated on the attached Supplemental Schedules, was 12.3% and 12.2% during the three-month periods ended December 31, 2006 and 2005, respectively. Our consolidated operating margin was 13.1% and 13.5% during the twelve-month periods ended December 31, 2006 and 2005, respectively.

At our acute care hospitals owned during both periods ("same facility basis"), inpatient admissions increased 2.4% and patient days increased 5.3% during the fourth quarter of 2006 as compared to the comparable 2005 quarter. The operating margin at our acute care hospitals owned during both periods remained unchanged at 12.1% during each of the fourth quarters of 2006 and 2005. On a same facility basis, inpatient admissions increased 1.7% and patient days increased 3.1% during the twelve-month period ended December 31, 2006 as compared to 2005. The operating margin at these acute care hospitals decreased to 13.4% during the twelve months ended December 31, 2006 as compared to 13.8% during the twelve months ended December 31, 2005. Since our acute care facilities located in Louisiana have been closed since the third quarter of 2005, the inpatient statistics for those facilities have been excluded from 2005.

On a same facility basis, inpatient admissions at our behavioral health facilities increased 3.7% and patient days increased 1.4% during the fourth quarter of 2006 as compared to the comparable 2005 quarter. The operating margin at these behavioral

health facilities increased to 23.5% during the fourth quarter of 2006 from 19.7% during the comparable quarter of the prior year. On a same facility basis, inpatient admissions at our behavioral health facilities increased 3.7% and patient days increased 1.7% during the twelve-month period ended December 31, 2006 as compared to 2005. The operating margin at these behavioral health facilities increased to 25.0% during the twelve months ended December 31, 2006 as compared to 22.8% during 2005.

Our provision for doubtful accounts as a percentage of net revenues was 8.3% and 9.0% during the three-month periods ended December 31, 2006 and 2005, respectively, and 8.3% and 9.4% during the twelve-month periods ended December 31, 2006 and 2005, respectively. Exclusive of the impact of the uninsured discount implemented at the beginning of this year, as a percentage of net revenues, the provision for doubtful accounts would have been 9.6% during each of the three and twelve-month periods ended December 31, 2006.

Effective July 1, 2006, the pharmacy services for our acute care facilities were brought in-house from an outsourced vendor and as a result of this change, during the three and twelve-month periods ended December 31, 2006, we experienced an increase in our supplies expense and salaries, wages and benefits expense and a decrease in our other operating expenses. The transition of our pharmacy services did not have a significant impact on our operating margin or net income during 2006.

During the fourth quarter of 2006, we used \$80.8 million of cash flow in operating activities while during the fourth quarter of 2005 net cash provided by operating activities was \$69.0 million. The \$149.8 million unfavorable change resulted primarily from the payment of \$168.1 million of income taxes during the fourth quarter of 2006 (as compared to \$500,000 during the fourth quarter of 2005), approximately \$95.0 million of which, as previously disclosed, was deferred pursuant to an Internal Revenue Service postponement granted to companies that owned businesses in the parishes of Louisiana that were most severely impacted by Hurricane Katrina. Also contributing to the unfavorable change in net cash provided by operating activities during the fourth quarter of 2006, as compared to the comparable quarter of the prior year, was an unfavorable change of \$29.7 million in accounts receivable. The unfavorable change in accounts receivable related primarily to revenues earned during the fourth quarter of 2006 in connection with supplemental programs in which our acute care hospitals located in Texas participate. The majority of these revenues are scheduled to be paid to us prior to June 30, 2007.

During the fourth quarter of 2006, we spent \$108.1 million on capital expenditures including additional costs related to the construction of a new 170-bed acute care hospital located in Las Vegas, Nevada, which is scheduled to be completed and opened during the fourth quarter of 2007, and a new 171-bed acute care hospital located in Palmdale, California, which is scheduled to be completed and opened during the fourth quarter of 2008. Also during the fourth quarter of 2006, we repurchased 2.34 million shares of our Class B Common Stock for an aggregate repurchase price of \$130.0 million.

During 2007, based upon current trends and subject to the provisions set forth below, we estimate that we will achieve earnings per diluted share from continuing operations of approximately \$3.00 to \$3.05 on projected net revenues of \$4.78 billion.

We will hold a conference call for investors and analysts at 9:00 a.m. Eastern Time on March 1, 2007. The dial-in number is 1-877-648-7971. A digital recording of the conference call will be available two hours after the completion of the conference call on March 1, 2007 and will continue through midnight on March 8, 2007. The recording can be accessed by calling 1-800-642-1687 and entering the conference ID number 7407164.

This call will also be available live over the internet at our web site at www.uhsinc.com. It will also be distributed over CCBN's Investor Distribution Network to both institutional and individual investors. Individual investors can listen to the call through CCBN's individual investor center at <http://www.companyboardroom.com> or by visiting any of the investor sites in CCBN's Individual Investor Network. Institutional investors can access the call via CCBN's password-protected event management site, StreetEvents (www.streetevents.com).

Universal Health Services, Inc. is one of the nation's largest hospital companies, operating acute care and behavioral health hospitals and ambulatory centers nationwide and in Puerto Rico. It acts as the advisor to Universal Health Realty Income Trust, a real estate investment trust (NYSE:UHT). For additional information on the Company, visit our web site: <http://www.uhsinc.com>.

This press release contains forward-looking statements based on current management expectations. Numerous factors, including those disclosed herein, those related to healthcare industry trends and those detailed in our filings with the Securities and Exchange Commission (as set forth in *Item 1A-Risk Factors* and in *Item 7-Forward-Looking Statements and Risk Factors* in our Form 10-K for the year ended December 31, 2006), may cause results to differ materially from those anticipated in the forward-looking statements. Many of the factors that will determine our future results are beyond our capability to control or predict. These statements are subject to risks and uncertainties and therefore actual results may differ materially. Readers should not place undue reliance on such forward-looking statements which reflect management's view only as of the date hereof. We undertake no obligation to revise or update any forward-looking statements, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise.

We believe that operating income, operating margin, adjusted income from continuing operations, adjusted income from continuing operations per diluted share, adjusted net income, adjusted net income per diluted share, adjusted operating income and adjusted operating margin, which are non-GAAP financial measures ("GAAP" is Generally Accepted Accounting Principles in the United States of America), are helpful to our investors as measures of our operating performance. In addition, we believe that

comparing and discussing our financial results based on these measures, as calculated, is helpful to our investors since it neutralizes the effect in each year of items that are nonrecurring or non-operational in nature including items such as, but not limited to, gains on sales of assets and businesses, reserves for lawsuits, hurricane-related expenses and insurance recoveries, the William & Mary Funding, and other amounts reflected in the current or prior year financial statements that relate to prior periods. To obtain a complete understanding of our financial performance these measures should be examined in connection with net income, determined in accordance with GAAP, as presented in the condensed consolidated financial statements and notes thereto in this Report or in our other filings with the Securities and Exchange Commission including our Report on Form 10-K for the year ended December 31, 2006. Since the items included or excluded from these measures are significant components in understanding and assessing financial performance under GAAP, these measures should not be considered to be alternatives to net income as a measure of our operating performance or profitability. Since these measures, as presented, are not determined in accordance with GAAP and are thus susceptible to varying calculations, they may not be comparable to other similarly titled measures of other companies. Investors are encouraged to use GAAP measures when evaluating our financial performance.
